Office Action Summary	Application No. 10/581,402	Applicant(s) MIYAIRI, MAKIKO	
	Examiner Michele Kidwell	Art Unit 3761	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 – 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Noda et al. (US 2001/0044611).

With reference to claims 1 – 3 and 7 – 12, Noda et al. (hereinafter “Noda”) discloses an absorbent article comprising a topsheet (2), a backsheet (3) and an absorbent body (4) interposed therebetween [0015] wherein the backsheet includes a colored area with a light transmittance and/or a non-colored area or a colored area (including white as a color) with an inspection portion as set forth on page 12, [0026 – 0026] and figure 1. Noda discloses an article having a light transmittance of 45% as set forth in [0031].

With respect to claims 4 – 6, Noda provides graphics (i.e., colored area) that are printed on the backsheet [0025] and therefore provide an identification to identify a front-rear orientation.

Response to Arguments

Applicant's arguments filed March 30, 2009 have been fully considered but they are not persuasive.

The examiner maintains that the applicant's arguments are not commensurate with the scope of the claims. The claim requires the absorbent article itself to have a specific light transmittance, however, the backsheet as disclosed by Noda and having the claimed light transmittance is a part of the article itself. The applicant appears to argue that the entire article has a specific light transmittance, but this is neither recited in the pending claims nor supported by the originally filed specification. See, for example, page 14, lines 4 – 7 and page 21, lines 18 – 21 which support, in addition to the remaining parts of the specification, the backsheet only having a pigmented layer from which the light transmittance is determined. The amendment of March 30, 2009 may clarify that the article includes a topsheet, backsheet and absorbent body, however, the light transmittance is only required at the colored area which is only required at the back sheet.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**.

See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
